Medicine Shoppe International, Inc. Teams Up with MemberHealth, Inc. to Provide Pharmacy Services Around the 2006 Medicare Prescription Drug Program

ST. LOUIS, November 18, 2005 – Medicine Shoppe International, Inc. (MSI), a Cardinal Health Company (NYSE: CAH) and the largest franchisor of independent community pharmacies, has established a relationship with MemberHealth, Inc. to provide pharmacy services to Medicare Part D eligible beneficiaries across the nation. MSI also will provide Medication Therapy Management (MTM) services for MemberHealth, Inc. through its Medicine Shoppe® Pharmacies and Medicap Pharmacy® Stores using a web based MTM secure messaging platform provided by Community MTM Services LLC, a subsidiary of the National Community Pharmacists Association

MemberHealth, Inc.'s Medicare Part D prescription drug plan, Community Care RxSM, offers eligible seniors and disabled individuals extensive prescription drug coverage at their local pharmacies. The Community Care RxSM program provides Medicare beneficiaries the opportunity to purchase a 90-day supply of medications at retail pharmacy, as opposed to mail, which is a unique offering among the ten national providers that are approved today to offer Medicare Prescription Drug Coverage. The plan also promotes the pharmacist's role in providing MTM services to eligible beneficiaries, and offers coverage in the United States, Puerto Rico and the United States Virgin Islands.

“Community Care RxSM understands the value of the pharmacist and customer relationship and the important role community pharmacists play in improving the quality of health care in America,” said Terry Burnside, president of Medicine Shoppe International, Inc. “Customers that spend time with their pharmacist benefit from the counseling and MTM they receive and the relationship they develop.”

The 2006 Medicare Prescription Drug Program will provide prescription drug coverage under Medicare. The coverage will help seniors and disabled individuals pay for the prescriptions they need, bringing affordable drug coverage and improved health care to millions of Americans.

Beginning November 15, seniors and disabled individuals may begin enrolling for the 2006 Medicare Prescription Drug Coverage. Enrolled beneficiaries can start receiving significant discounts on their prescription drugs on January 1, 2006.
